Executive Advisor
Institutional Advisors
Louisville, Kentucky

To Whom It May Concern:

Bridge Advisory, a multi-disciplinary consulting firm, identifies and builds corporate strategy working with both established executives and early stage businesses. As an educational outreach, the firm will partner with the Foundations Fund to build educational resources for communities and individuals, seeking to offer academic and commercial advisory services to individuals and institutions to provide new horizons for leadership nationally and to help individuals take responsibility and find meaning for their lives and their futures as they create opportunities for leadership and a sense of well-being.

Corporate and Educational Training

Bridge Advisory will provide the basis for educational centers for young adults and professionals within the Dallas, Texas metropolitan area and virtually across the nation to provide academic leadership for professionals to build common sets of knowledge and professional acumen in a variety of disciplines. This sense of academic leadership and training helps to enable generational growth and professional knowledge to otherwise disadvantaged communities and individuals who are seeking life changes. Today's technology incorporates all of marketplace leadership and digital and financial literacy will continue to shape how individuals make personal and business decisions and approach society in the future.

Leadership Development and Life Coaching

Another cornerstone of the Foundations Fund's work is its focus on leadership development and life coaching. Educational leadership is crucial to creating an environment where both students and teachers can thrive. The Fund offers leadership development programs designed to enhance the skills of educators, administrators, and even students. These programs focus on emotional intelligence, decision-making, team-building, and conflict resolution—skills that are invaluable in educational settings. Furthermore, life coaching services provide essential support for individuals at all levels. Whether helping students manage stress, assisting teachers in improving their teaching practices, or coaching school leaders through personal and professional challenges, the Fund helps individuals strengthen their resilience and achieve their personal and academic goals.

Our Founder

David Cooper, Chief Executive Officer of Bridge Advisory, has ten years of experience in investing and building businesses and holds master's degrees from Indiana University and an undergraduate degree from the University of Louisville. Mr. Cooper provides insight and resources for creating business brands and institutions and offers his thoughts to provide constant leadership, financial management, brand management, and performance training.
